ZAMPERLA'S BEST-SELLER
BECOMES CENTERPIECE
OF SHARJAH FEC

'CROWD-PULLERS' IN OMAN

AIR RACE 6.2 AND
WINDSTARZ AMONG
SEVERAL NEW RIDES IN OMAN

Air Race thrills visitors at Adventureland

Zamperla's best-seller becomes centerpiece of Sharjah FEC renovation

Adventureland in Sharjah, UAE, has renovated its offer by replacing an existing go-karts structure and some older rides with a new range of rides headed by an Air Race 6.2.

The compact version of Zamperla's best-selling ride has proved once again to be the ideal focal point for an FEC looking for a family thrill ride with a spectacular visual effect.

The Air Race joins five other Zamperla rides in the FEC in the shape of a Gravity Moto Coaster, two Powered Coasters, a Demolition Derby and a Jumping Star.

New WindstarZ for Global Village

A highly successful Zamperla ride for the most successful park in the Middle East

Global Village Dubai is the leading seasonal, cultural extravaganza in the region and offers visitors a truly amazing array of festivals, shopping and entertainment.

It reopened its doors to the public on November 1, 2017, for its 22nd. season and while many of the popular attraction's previous features remain, the rides area has been totally refreshed.

In fact it has been designed to look like carnivals from all over the world, with themed music and lights, and each of the 28 rides and 34 games have been named after major world cities. As part of the renovation process, Global Village chose to incorporate the first WindstarZ to be operated in the Middle East area.

With its colorful and attractive design, the original WindstarZ interactivity elements allow Global Village riders to be captains of their own experience by controlling the movement of the sail on their personal 'hang glider.' Additionally, as well as the fun of the ride itself, a special light package custom made for Global Village ensures the lighting on the attraction is even more appealing after dark.

Following the success of the ride in Global Village, it will soon also be possible to ride a WindstarZ in Oman too, where another example of the ride is due to open in the near future.

MAF to offer virtual coaster fun from Z+

MAF set to be the first to operate the new VR BOX

In the last two years, Dubai-based MAF took the decision to totally revamp its locations with the intention of adding new rides and innovative concepts. As a result, the company decided to invest – as the first customer in the world – in the VR BOX from Zamperla's new Z+ division, in order to offer its customers a big coaster experience even though they are in an indoor FEC with limited space.

In the meantime, the Z+ team has worked hard to improve the ride experience by replacing the mobile based headsets with a wired version featuring a higher resolution. Additionally, the team has produced the Mine Train @Ocean Park, Hong Kong, as the third roller coaster 360 video and is also working on another, mixed reality video to add yet more to the ride experience.

In a further development of the attraction, in order to satisfy the requirements of smaller operators, a four-seat version of the ride has now been developed and will be available soon. So if you are looking to offer your customers a big coaster experience, even if you don't have the space or budget for a real coaster, the VR BOX is the perfect product for you.

'Crowd-pullers' added to Oman locations

Air Race 6.2 and WindstarZ among several new rides in Oman

The Abu Taleb Investment Group is a major developer of real estate in Oman, its work including several amusement projects where it has recognized the importance of having large, crowd-pulling rides among the attractions on offer.

As an example, for the group's 4,500sq.m Funtazmo FEC inside Avenues Mall in Muscat, it chose to offer customers the thrilling experience of an Air Race 6.2 together with a Magic Bikes. Additionally, for a new upcoming project in Ruwi, which is due to open in summer 2018, the decision was taken to include a WindstarZ as the centerpiece attraction, surrounded by a Su&Zo, a Jump Around and a Magic Bikes.

The Ruwi WindstarZ will be the first indoor installation of this ride which offers riders the opportunity to create their own experience by controlling the movement of the sail on their 'hang glider' vehicle.

New WindstarZ model under development

As a result of the continued worldwide success Zamperla is enjoying with the hugely popular WindstarZ ride, we are now working on an 8-seat version of the attraction which will be presented for the first time at the IAAPA Attractions Expo 2018 in Orlando. The new model is being developed in order to satisfy the requirements of smaller locations.
