### **Re: Donation to The Umbrella Foundation**

To the workers of Zamperla,

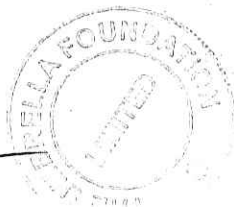

I hope this letter finds you well. We at Umbrella have recently received a donation from your organisation of €1300, and we are writing this letter to confirm receipt of the donation, and to say a big, big thank you for this amazing donation!

As you may know, Umbrella is a small charity that relies on private donations from good-hearted people like yourselves to enable us to keep running – we do not have large institutions providing us with funding, most of our donations come from individuals and organisations like yours.

Umbrella is currently supporting over 100 children in 15 districts in Nepal. We have one project that is supporting children to live in happy and safe foster care, which is something quite new in Nepal. Another project supporting children and young adults who have been rescued from sub-standard or corrupt childcare homes and subsequently reintegrated with their families (they receive regular financial support and monitoring visits from us), one project supporting young adults (generally aged 16-19) who have graduated from Umbrella childcare homes and require continued support for them to access education and be able to live independently, and another project supporting very vulnerable children and their families who required additional support after the earthquake.

On behalf of myself, the organisation and the children and young people that we support, I would like to truly thank you for your donation, I can assure you that it will be used to help support needy children, and that the funds will be used responsibly.

Yours sincerely,

Kyle Mohamed

Country Director

The Umbrella Foundation
